

**REMARKS**

The undersigned kindly thanks the Examiner for the courtesies extended during the recent telephonic interview. As discussed during the interview, Applicant believes the claims are patentable over the prior art as then pending. Nevertheless, without prejudice to re-filing those claims in a continuation, the claims have been amended in accordance with the Examiner's suggestions for putting the application in condition for allowance or better form for appeal. None of the prior art of record is believed to teach or suggest these features, whether alone or in combination. As a result, the application is believed to be in condition for allowance. Reconsideration of all grounds of rejection is requested. It is requested that the non-elected species claims be allowed since the generic claims are all allowable.

Should the examiner have any questions, or believe that a discussion of any aspect of this application would help expedite prosecution, a telephone call to the undersigned is strongly encouraged.
